

Madina Tadzhidinova

DevOps

Personal Information

Date of birth: 24.01.2023

Nationality: kyrgyz

Address: Karasaeva 180, Karakol 722200, Kyrgyzstan

Phone number: +996774714663

Email address: madina.tadjidinova@gmail.com

LinkedIn: www.linkedin.com/in/

Web: https://madina-tad.netlify.app

Profile

I am usually an emotional and active person with a background in volunteering and programming . I have excellent communication skills and know how to work in a team.

Work experience

07/2021 – 01/2022	Junior Fronted Developer
Saint Petersburg, Russia	Findinamica

09/2021 - present	Volunteer
Enactus	

Education

09/2010 – 05/2021	school Student
Karakol, Kyrgyzstan	N.M. Przhevalsky Gymnasium School #2

09/2021 – present	Software Student
Karakol, Kyrgyzstan	ISU named after Kasym Tynystanov

10/2020 – 05/2021	Frontend Developer Student
Karakol, Kyrgyzstan	It Academy

10/2022 – present	DevOps Student
Karakol, Kyrgyzstan	DevX

EDUCATION

Software development

Issyk-Kul State University

2021-2025

Focused on programming languages, algorithms, data structures, and web development. Engaged in hands-on projects, fostering problem-solving and teamwork skills. Committed to continuous learning and staying updated with industry trends.

DevOps

DevX

2022-2023

Completed coursework in DevOps methodology, tools, and practices. Acquired knowledge and skills in areas such as continuous integration and deployment, infrastructure as code, containerization, and cloud computing. Explored best practices for collaboration and automation in software development and operations.

PROFILE

As an emotional and active individual with a background in volunteering and programming, I bring a unique blend of passion and technical expertise to my work. With excellent communication skills and a strong ability to collaborate within a team, I am able to effectively convey ideas and contribute to collective goals. I thrive in environments that value empathy, creativity, and problem-solving, and I am motivated to make a positive impact through my work

WORK EXPERIENCE

Intern/Junior Frontend Developer

New Generation Academy in Chicago

June 2021 - September 2021

Responsibilities:

- Website layout development
- Bootstrap
- JavaScript.

Junior Frontend Developer

Findinamika

2021-2022

Responsibilities:

- Designing website layouts based on project requirements and objectives.
- Developing responsive and production-ready websites for diverse devices and screen sizes.
- Utilizing ReactJS, router, and hooks to build functional components.
- Enhancing website functionality and appearance to meet client's specifications.
- Collaborating with designers and developers in team projects to achieve shared objectives.

Additional Skills and Achievements:

- Proficient in HTML5, CSS3, and modern web development standards.
- Experienced in JavaScript and frameworks like ReactJS.
- Knowledge of adaptive design principles for multi-device optimization.
- Familiarity with Git and version control systems.
- Effective time management and task organization to meet project deadlines.

EDUCATION

Разработка программного обеспечения

Issyk-Kul State University

2021-2025

Основное внимание уделялось языкам программирования, алгоритмам, структурам данных и веб-разработке. Участвовал в практических проектах, развивая навыки решения проблем и работы в команде. Стремится к постоянному обучению и следит за тенденциями в отрасли.

DevOps

DevX

2022-2023

Прошел курс обучения методологии, инструментам и практике DevOps. Приобрел знания и навыки в таких областях, как непрерывная интеграция и развертывание, инфраструктура как код, контейнеризация и облачные вычисления. Изучил передовые методы сотрудничества и автоматизации при разработке и эксплуатации программного обеспечения.

PROFILE

Будучи эмоциональным и активным человеком с опытом волонтерской деятельности и программирования, я привношу в свою работу уникальное сочетание страсти и технических знаний. Обладая отличными коммуникативными навыками и способностью сотрудничать в команде, я могу эффективно доносить идеи и способствовать достижению коллективных целей. Я преуспеваю в среде, где ценятся соперничество, творчество и решение проблем, и я мотивирован оказывать положительное влияние своей работой.

ОПЫТ РАБОТЫ

intern/Junior Frontend разработчик

New Generation Academy in Chicago

Июнь 2021 - сентябрь 2021

Обязанности:

- Разработка макета сайта
- Bootstrap
- JavaScript

Junior Frontend разработчик

Findinamika

2021-2022

Обязанности:

- Разработка макетов веб-сайтов на основе требований и целей проекта.
- Разработка отзывчивых и готовых к производству веб-сайтов для различных устройств и размеров экрана.
- Использование ReactJS, роутера и хуков для создания функциональных компонентов.
- Улучшение функциональности и внешнего вида сайта в соответствии со спецификациями клиента.
- Сотрудничество с дизайнерами и разработчиками в командных проектах для достижения общих целей.

Дополнительные навыки и достижения:

- Знание HTML5, CSS3 и современных стандартов веб-разработки.
- Опыт работы с JavaScript и такими фреймворками, как ReactJS.
- Знание принципов адаптивного дизайна для оптимизации работы нескольких устройств.
- Знакомство с Git и системами контроля версий.
- Эффективное управление временем и организация задач для соблюдения сроков реализации проектов.

ОБРАЗОВАНИЕ

Разработка программного обеспечение

ИГУ им. К. Тыныстанова

2021-2025

Основное внимание уделялось языкам программирования, алгоритмам, структурам данных и веб-разработке. Участвовал в практических проектах, развивая навыки решения проблем и работы в команде. Стремится к постоянному обучению и следит за тенденциями в отрасли.

DevOps

DevX

2022-2023

Образование:

Изучение методологии, инструментов и практики DevOps в компании DevX.

Прошел курс обучения, охватывающий принципы DevOps, включая непрерывную интеграцию и развертывание, инфраструктуру как код, контейнеризацию и облачные вычисления.

Приобрел знания о лучших практиках совместной работы и автоматизации для разработки и эксплуатации программного обеспечения.

В настоящее время продолжаю обучение в компании DevX, уделяя особое внимание методологии, инструментам и практике DevOps. Прошел курс обучения в таких областях, как непрерывная интеграция и развертывание, инфраструктура как код, контейнеризация и облачные вычисления. Изучил передовые методы сотрудничества и автоматизации в разработке и эксплуатации программного обеспечения.

В компании DevX я получил ценные знания о тенденциях и технологиях DevOps. Сюда входит внедрение практики непрерывной интеграции и развертывания, использование инфраструктуры как кода, контейнеризация с помощью таких инструментов, как Docker и Kubernetes, и развертывание приложений в облачных средах. Кроме того, я узнал о лучших практиках сотрудничества и автоматизации для эффективной разработки и эксплуатации программного обеспечения.

PROFILE

I am a junior DevOps Engineer with limited experience. I am learning about supporting and automating deployments in AWS and GCP. I am eager to improve my skills and contribute to projects. While I am hardworking, my expertise is still developing. I value teamwork, communication, and learning from experienced team members. I am strong with team work, interpersonal and communication skills, leadership skills gained through various experiences

WORK EXPERIENCE

Intern/Junior DevOps Engineer

State Portal of Electronic Services "Tunduk" November 2021 - Present

Intern DevOps Engineer - November 2021 - January 2022

Responsibilities:

- Assisted the DevOps team in automating software delivery pipelines and infrastructure provisioning processes.
- Worked on various tasks related to configuration management, continuous integration, and deployment.
- Gained hands-on experience with tools like Docker, Kubernetes, and Jenkins.
- Collaborated with team members to troubleshoot and resolve issues related to deployment and infrastructure.
- Assisted in monitoring and optimizing system performance, ensuring high availability of services.
- Learned and applied best practices for security, scalability, and performance in the DevOps environment.
- Actively participated in team meetings and training sessions to expand knowledge and skills.

Junior DevOps Engineer - January 2022 - Present

Responsibilities:

- Promoted to the role of Junior DevOps Engineer after successfully completing the internship.
- Assumed increased responsibilities in designing and implementing CI/CD pipelines for various projects.
- Collaborated with development teams to automate build, test, and deployment processes.
- Utilized tools such as Git, Jenkins, Ansible, and AWS to improve the efficiency and reliability of software delivery.
- Assisted in managing and maintaining infrastructure, including cloud resources and virtualization technologies.
- Troubleshooted and resolved issues related to deployments, system performance, and scalability.
- Participated in the on-call rotation, responding to and resolving incidents in a timely manner.
- Contributed to documentation and knowledge sharing to ensure a smooth transition and knowledge transfer within the team.
- Actively participated in team meetings, brainstorming sessions, and training programs to enhance skills and stay updated on industry trends.

EXPERIENCE

Experience with wedevx.co and devx.kg as a Coding Bootcamp:
At WeDevX.co and DevX.kg, I underwent an immersive coding bootcamp focused on DevOps. I gained practical skills in continuous integration, infrastructure as code, containerization, cloud computing (AWS, Azure, Google Cloud), and automation with Ansible and Terraform. The bootcamp provided a strong foundation in DevOps principles and real-world implementation.

EDUCATION

Software development

Issyk-Kul State University

2021-2025

Focused on programming languages, algorithms, data structures, and web development. Engaged in hands-on projects, fostering problem-solving and teamwork skills. Committed to continuous learning and staying updated with industry trends.

DevOps

DevX

2022-2023

Education:

- Studying DevOps methodology, tools, and practices at DevX.
- Completed coursework covering DevOps principles, including continuous integration and deployment, infrastructure as code, containerization, and cloud computing.
- Gained knowledge in collaboration and automation best practices for software development and operations.

Currently pursuing studies at DevX, focusing on DevOps methodology, tools, and practices. Completed coursework in areas such as continuous integration and deployment, infrastructure as code, containerization, and cloud computing. Explored best practices for collaboration and automation in software development and operations.

At DevX, I have gained valuable insights into DevOps trends and technologies. This includes implementing continuous integration and deployment practices, utilizing infrastructure as code, containerization with tools like Docker and Kubernetes, and deploying applications in cloud environments. Additionally, I have learned about collaboration and automation best practices for efficient software development and operations.
